

# Who cares about Downtown?

We do.

---

Design Collaborative is invested in Downtown Fort Wayne. We work Downtown. We live Downtown. We're designing the residential tower for Project Emerald Skyline to reflect the growth and vitality of the heart of our city. Just like every one of our projects, Design Collaborative is excited to watch the residents and visitors enjoy the space into which we've put so much of ourselves. Tired of firms that don't design for you? Maybe you need to meet the designers that break the mold.
